sharon.bond@bdct.nhs.uk

7. Nominee details.

Address (for certificate) *

collect from NM as agile workers

8. Please tell us about the work of the project, individual or service and why you are nominating them in no more than 200 words: *

During 2025 the Falls Prevention team have undertaken a quality improvement review to focus on Falls Prevention through a multi disciplinary team approach. They have worked as a team to update their assessment, system 1 dashboard, referral criteria and service offer, added NEWS2 and now use validated outcome measures to demonstrate the team's effectiveness. Patient reported outcome measures to consider patients fear of falling have also been introduced. Updated NICE falls guidance, directed skill mix in the team who now have a physiotherapist, pharmacy technician and along with established activity coordinators and nurses, offer a more co-ordinated MDT approach using the skills available in the team. The whole team have a shared vision, and are passionate about preventing falls; they are continuing their service development with the support of the innovation team to consider how referrals are received and exploring the use of digital options to reach more patients and be more inclusive in their ambition to reduce falls.

9. Please upload a photo of the individual/team you are nominating *this will be used for recognition and promotion of the awards *
