

Community Collaboration....

...Connecting Care

Aims and Objectives

Improving physical and mental health outcomes through collaboration

Community Collaboration – the journey to date

Bradford District Care
NHS Foundation Trust

January 2020 - BCA/BDCFT Community Collaborative Proposition approved by Bradford Health and Care Partnership Board

Secured RIC funding to develop proactive care model

27th February – Improvement workshop representation from 3 PCN's (WACA/WISSH/Affinity), BDCT and VCS. Current and future state identified and project plans starting to develop

May 2020 – reconnection with PCN's, delay due to COVID. Confirmed project plans and steps required for progression

Attendance at the PCN Clinical Advisory Board

Enhanced Health in Care Home actions to be implemented across the district, work required to begin to align District Nursing teams. Alignment of GP's to care homes

Currently 3 distinct projects with WISSH/WACA and Affinity Working group established within south 7

CP9 (BD4) recruited to care coordinator role and looking to develop the MDT huddle function

Development of a mental health role to link into each PCN providing advice and consultation

The journey to date - Pilot updates

WISHH

Established a weekly MDT huddle building on the proactive care pilot. This is a system discussion at PCN level regarding concerns relating to care homes and complex/housebound patients.
A focus on responding to escalating needs.
A dashboard currently in development to support tracking.

AFFINITY

Starting to implement MDT huddles, primarily with community matrons and primary care, to incorporate Mental health. Focus around complex patients. Expected benefits include a reduction in home visits, reduction in duplication and a sharing of caseload responsibility.

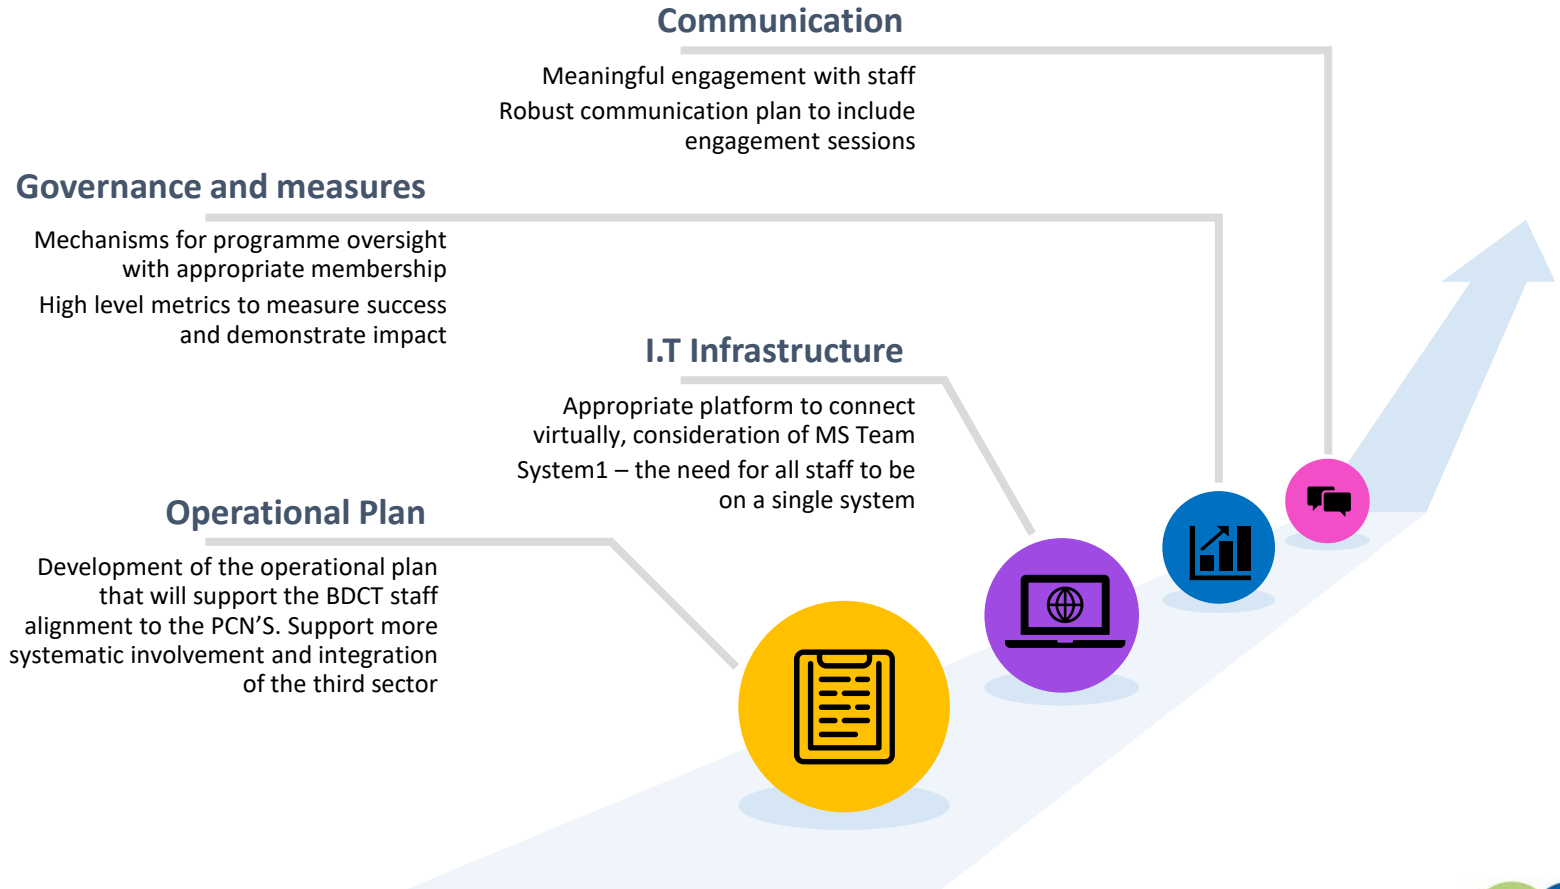

WACA

WACA established a working group to develop MDT huddle and understand gaps in service to fulfil EHICH requirements.
Other areas of work identified including: care planning, file sharing and engagement with the care homes.
Initial MDT scheduled 24.09.20.

South 7

Improvement session to generate ideas on how to proceed with the MDT huddle, particular focus around care homes.
Developing the weekly ward round within care homes. To scope the roles of each professional with regards to the acute and elective care elements.

To be considered

Next Steps
