Bradford District Care
NHS Foundation Trust

Ockenden Review of Maternity Services

Phillipa Hubbard –Director of Nursing,
Professions & Care Standards, DIPC

Introduction

Bradford District Care
NHS Foundation Trust

- Report considered the care of babies and mothers at Shrewsbury and Telford Hospital NHS Trust who suffered significant harm (2017)
- Total of 1,862 clinical reviews were undertaken from 2000-2019
- Focus on maternal deaths, stillbirths, neonatal deaths and hypoxic ischaemic encephalopathy
- Reviewed by NHS Improvement, NHSE and CQC as regulators with immediate learning, essential actions for all maternity services across England
- Review of maternity governance systems

Immediate/Essential Actions

Bradford District Care
NHS Foundation Trust

- Enhanced Safety – maternal deaths reviewed by board
- Listening to women and their families
- Staff training and working together
- Management of complex pregnancy and risk assessment
- Monitoring of fetal wellbeing
- Informed consent

Actions for BDCFT Board

- Engage with acute providers on reviewing maternal mental health and SI associated with care
